Steve- I think we are not to give any information that isn't public; so awkward to answer this question.

Subject: Somewhat urgent — Quick question

Hi Steve — Any idea of the status of EPA action on the petition for rulemaking filed by CDB and others in July of 2019 asking for CWA regulation of plastics? Has it been decided? Is it likely to be decided before Trump leaves office? Will it carry over to the Biden Administration? Any unreasonably delay litigation yet filed? I am giving a speech to NAS at noon today in which this might come up. Just trying to help them read the tea leaves in terms of carry over to the next administration. Thanks! Scott
